Bandar Lampung, Lampung

ABOUT

I have significant experience in front-end and back-end development, having completed numerous application and website projects that showcase my skills. My strong background in Python technology is reflected in the diverse applications I've built, such as a machine learning-based detection app, and then i can use express.js and node.js runtime for backend.

I am confident that my perseverance, strong work ethic, time management, attention to detail, and problem-solving skills can greatly contribute to achieving your company's goals. I look forward to the opportunity to work with a dynamic and growth-oriented team and am ready to take on new career challenges.

EDUCATION

IIB DARMAJAYA

Mei 2019 – November 2023

Bachelor of Informatics Engineering

GPA: 3.69/4.00

WORK & EXPERIENCE
